## Spring-Summer 2022

Rami Al Ali's spring/summer 2022 couture collection pays homage to the dawn of spring. The 23-piece lineup explores the beauty of landscapes as they evolve from one season to another.

A mystical tone embodies the collection with delicate yet beautifully structured shapes. While soft transparencies are given a frost-like effect through the inclusion of crystals.

Designs exuding modernity and classic style stand out against a muted palette of pastels. Mint greens, citron yellow, pale rose and icy blues are thoughtfully interspersed with black to provide a level of depth and a moody undertone.
